

HAWKCHURCH HERALD

The Official Newsletter of
Summer Camp 2017

Edition 7

Friday 28th July

Editors: Paul, Jo &

Jane

Reporters: You!

Fly on the wall

Pirate ship squeeze

Louise struck up a friendly relationship with Baz at the adventure park today in ensuring that she had a comfortable ride and he promised to stop the ride if she had a problem...he even conducted customer applause for her brave efforts in the pirate ship.

Lost Soul

Jez was obviously looking a little lost at the adventure park for he was given a lost child wrist band.

Amy & Olly were pillow surfing on each other's shoulders whilst dozing on the trip back from Crealy.

Jo briefly became a school mistress whilst calling the passenger register. 'Yes Miss' The Young Leaders enjoyed the 'baby rides' so much that they all fell asleep on the way back.

Paul B has been renamed 'Wakey wakey' by a certain female minibus driver who couldn't remember his name.

Tooth Fairy

If anybody sees the tooth fairy around, please direct them to **George's** tent.

Romance

Frankie and **Bennie** are still an item; After a brief falling out the **Bizzy** relationship is now more than ever; a BIG hug sealed the deal.

Games

Robyn and **Olly** mutually splattered each other in the eye playing games in the marquee after returning from Crealy.

Amidst all the games the voice distorter proved very popular. Siblings could detect each other but **Dave** failed to detect **Jane** -not siblings then!

Did you Know?

The River Axe, which runs through our campsite, rises near Beaminster in Dorset, flows west then south by Axminster and joins the English Channel at Axmouth near Seaton in Lyme Bay. During its 22-mile (35 km) course it is fed by various streams and by the tributary rivers Yarty and Coly.

It is a shallow, non-navigable river, although its mouth at Axmouth has some boating activity.

The name derives from a Common Brittonic word meaning "abounding in fish", which is also the root for the River Axe in the Bristol Channel as well as the Exe, Esk, Usk and other variants.

In 1999, a section of the river extending for 13 kilometres (8.1 mi)—from the confluence with the Blackwater River to Colyford Bridge was designated a Site of Special Scientific Interest (SSSI). It was described as supporting "an exceptionally diverse aquatic and marginal flora". The river's diversity comes from its active geomorphology, which has created a number of natural features that support niche ecologies; it also comes from there being a limited number of trees on the river bank, allowing in light; and also the riverbed stability in the lower reaches of the river. The fish life in the river is considered of European interest; aquatic life more generally includes salmon, bullheads, otters, medicinal leeches and kingfishers; all are of particular value, as is the diverse aquatic and marginal plant life. The geomorphology of the meanders south of Axminster are the particular geological interest.

Camp Leaders chat

The weather is certainly giving us a few challenges, so please make sure that you keep all your stuff dry and away from the sides of the tent; most importantly close tent doors.

People are starting to show the effects of a busy week and going to bed early, so please respect their choice and be quiet around their tents. Play your games in the field away from the tents, please.

2Mrw's Weather

17C Rain most of the day.

Activities

Saturdays activities are :-

- Archery/Shooting
- Biking
- Kayaking
- Duty Patrol
- Coracles
- Quad Bikes
- Duty Patrol
- Rib Ride
- Geohike

And Saturday Evening:-

- Campfire

Crackers!

An early Xmas

Q: What is a computers first sign of old age?

A: Loss of memory.

Q: Why won't clams lend you money?

A: Because they're shellfish.

Q: What did the snowflake say to the fallen leaf?

A: You're so last season.

Correction

In yesterday's Newsletter **Dan James** was omitted from the listing of the Young Leaders patrol. Apologies for the error.

Points

(cumulative)

Falcons – 439

Gannets – 409.5

Merlins – 501.5

Owls - 431.5

Peewits – 369

Camp Facts 7

1. How many man-hours does the Camp Leader put into planning this camp
2. How many Scouts are there on Camp?
3. How many litres of squash is drunk ?

Joke

Q: Why can't you trust an atom?

A: Cos it makes up everything.

Challenge Stats

Further to yesterdays brief report on the challenge here are some more details:-

Falcons – 25- 2nd 89pts

Gannets – 20-3rd 73pts

Merlins – 30 - 1st 133pts

Owls - 19- 4th 59pts

Peewits – 21- 5th 53pts

First number = Bases attempted

Second number position

Third Number actual points earned.

The points earned were then subjected to a clever mathematical formula and were added to the overall points for camp:-

Falcons – 44.5

Gannets – 36.5

Merlins – 66.5

Owls - 29.5

Peewits – 28

As you can see - bases win prizes
